Review and proceed with the engagement form if the preferred offer is accepted, so the new gas agreement can be arranged ahead of the proposed contract start date.

Important Notes

This comparison is based on the retail energy component of the gas invoice. Network charges, environmental charges, regulated charges, metering charges and other pass-through costs may vary over time and are generally outside the fixed retail energy rate.

The proposed gas rates are fixed for each relevant contract period, subject to final retailer acceptance and execution of the required agreement documentation.
